

Bilaga till rapport

Rullstolar och tilläggsutrustning Effekt, upplevelser och erfarenheter samt kostnadseffektivitet

Bilaga 2 Inkluderade och exkluderade primärstudier och bedömning av hög risk för bias/Appendix 2 Included and excluded studies and studies with high risk of bias

Table of contents

Included studies	page 2-6
Excluded studies	page 7-85
Kvant studies with high risk of bias	page 86

This list consists of articles not included in SBU's report. It has two parts:

Excluded studies

This part consists of articles considered relevant in terms of abstract, but the full-text articles were considered to be irrelevant to the research question and other inclusion criteria, after assessment.

Studies with high risk of bias

This part consists of articles that were relevant in terms of abstract and full-text, but after quality assessment considered to be studies with high risk of bias.

Included studies kvant

Best KL, Kirby RL, Smith C, MacLeod DA. Wheelchair skills training for community-based manual wheelchair users: a randomized controlled trial. *Archives of Physical Medicine & Rehabilitation* 2005;86:2316-2323.

Best KL, Miller WC, Huston G, Routhier F, Eng JJ. Pilot Study of a Peer-Led Wheelchair Training Program to Improve Self-Efficacy Using a Manual Wheelchair: A Randomized Controlled Trial. *Archives of Physical Medicine & Rehabilitation* 2016;97:37-44.
