

Bilaga 36 Exkluderade studier samt studier med hög risk för bias för TÅ-par 80

Vetenskapligt underlag till Socialstyrelsens nationella riktlinjer för tandvården

Rapport nr 334

Appendix 36 Excluded studies and studies with high risk of bias for TÅ-par 80

Table of contents

| | |
|--------------------------------|----------|
| Excluded studies | page 2-5 |
| Studies with high risk of bias | page 6 |

This list consists of articles not included in SBU's report. It has two parts:

Excluded studies

This part consists of articles considered relevant in terms of abstract, but the full-text articles were considered to be irrelevant to the research question and other inclusion criteria, after assessment.

Studies with high risk of bias

This part consists of articles that were relevant in terms of abstract and full-text, but after quality assessment considered to be studies with high risk of bias.

Excluded studies

| Reference | Main reason for exclusion |
|--|---------------------------|
| American Academy of Pediatric D. Clinical guideline on management of persons with special health care needs. <i>Pediatric Dentistry</i> 2004;26:77-80. | Not relevant |
